OCTOBER 2018

RAEDWALD TRUST IMPROVEMENT PLAN

1. Trust Priorities, Areas for Development (AfD), Key performance Indicators (KPI) Summary 2018 – 2019

Priority 1: Enabling inspirational leadership and management

Now entering the third year of maturation, the Raedwald Trust is able to enter a year of rigorous consolidation, amending and stabilising its systems to secure learners and the wider community of exemplary across all of its academies and provisions. In September 2018 a new CEO took over from the Trust’s founding Executive Head Teachers and an earlier evaluation of Governance resulted in amended scheme of delegation being implemented for the first part of the academic year. The Trust Board’s confirmation of a restructured, centralised leadership team in place for September 2018 means that there is a strong mechanism through which the Trust is able to deliver its ambitions.

As a result our L&M foci are to:

- Construct and deliver a fit for purpose trust wide accountability framework, holding all aspects of the organisation to account through transparent, ethical metrics
- Grow new and experienced leaders able to inspire learners, colleagues and stakeholders
- Co-construct a published portfolio of policies and procedures enabling inspirational leadership at all levels, including digital capacity

Priority 2: Delivering High Quality Learning

There is a clear focus on learning across the Trust with practice in some places being exceptional. Where learning is seen to be below standards expected, experienced leadership and pedagogic support is deployed. In June 2018, the Trust Board commissioned an external review of Teaching Learning and Assessment which was largely positive but also offered key lines of enquiry for Head Teacher follow up. An analysis of attainment at KS4 in the summer series 2018 has focused the Trust central team to undertake a specific curriculum review designed to ensure learners are always able to access learning pathways leading to well matched attainment outcomes.

As a result our foci are to:

- Centralise curriculum standards and expectations through HEG and RT Pedagogical and RT External Provision
- Standardise processes for pupil level monitoring of learning

Priority 3: Securing Safe and Energising Learning Environments

The Raedwald Trust is built on the belief that we keep our learners safe first because this provides the right context for learning. As new academies have converted into the Trust we now have opportunity to consolidate and deliver exemplary practice. In order to do this, the Trust has created

a Central RT Safeguarding Team comprising DSL and DDSL from across its academies. It has also commissioned and external scrutineer to challenge safeguarding practices at a pupil and organisational level.

As a result our foci are to:

- Centralise support, challenge and supervision in relation to this area

Priority 4: Empowering Supportive, Skilled and Nurturing Staff

The Trust has been built on a strong foundation of valuing and supporting colleagues at every level. However, there are inconsistencies across sites and academies that have always allowed for the best standards to be applied in all places. Having converted 3 new academies into the Trust last year and with 1 additional academy planned to convert this year, the need to formalise all aspects of HT is now crucial.

As a result our foci are to:

- Formalise consistent policies for HR to be applied to all academies

Priority 5: Forging Focused Partnerships and Collaborations Benefitting Pupil Outcomes

The Trust and its academies have good relationships with local stakeholders and partners but are not yet active participants in national or international collaborations. Because of this, expertise and growth within the Trust is limited to experience held within geographical boundaries and opportunities for improvement are impaired.

As a result our foci are to:

- Identify key staff responsible for participating in national and international collaborations advancing AP practice and provision
- Establish an internal system of capturing and sharing knowledge gained, clearly identifying impact on pupil outcomes
