## 1. Principles that shape practice

We believe that:

- Every child deserves to have a positive experience of education where their individual needs are recognised and they are supported to thrive.
- Every child is a unique child, who is constantly learning.
- Our core values of engagement, success, resilience, reflection and respectOur focus on personal, social and development enables children to develop positive attitudes towards learning and towards others.
- Children learn and develop well in nurturing environmentsenvironments, in which their experiences respond to their individual needs and there is a strong partnership between all staff, parents/carers and community schools.
- Children develop and learn in different ways and at different rates and all are valued equally.

## 2. Learning and development

- The curriculum is based on theis derived from the DfE Statutory Framework for the Early Years Foundation Stage and the Key Stage One National Curriculum.
- Children are taught in mixed age classes with high levels of adult support and differentiation. This enables them to access a broad curriculum at a level appropriate to their own personal requirements.
- Each area of learning and development is implemented through planned, purposeful play and through a mix of adult-led and child-initiated activity. Play is seen as essential for children's development, building their confidence as they learn to explore, to think about problems, and where possible relate to others.
- We try to maintain a balance between teacher initiated and child led activities.
- We take into consideration the child's individual needs: their medical needs (which always take priority), interests, and stage of development. We use this information in our planning.
- In planning and delivering activities, we consider the different ways that children learn: through playing and exploring, active learning and creative and critical thinking.
- We provide a stimulating environment which includes frequent access to outside areas for learning and play.
- Phonics is taught on two of the three placement days and follows the Read Write Inc. programme.
- We have a strong focus on personal, social and emotional development. Children are rewarded individually and as a class for demonstrating core values of engagement, success, resilience, reflection and respect.
- Children are taught in small groups with a high ratio of adult support.

## 3. Assessment

- Detailed baseline assessment are requested from mainstream schools Thorough entry assessments are carried out to establish a clear picture of pupil's current ability and to enable planning and learning which will allow them to make maximum progress throughout their placement.
- Exit assessments allow us to give a direct comparison and to give a clear picture of progress that has been made.

- 
- Ongoing assessment is an integral part of the learning and development process. Children are observed to understand their level of achievement, interests and learning styles, which then shapes future planned learning experiences. We value the input of parents/carers, and community schools in this process.
  - Teacher assessment of objectives taught is shared with the mainstream school to give a clear picture of progress.
  - Individual Learning Journeys Children's work books provide a record of each child's achievements and of learning and development . achievements.
  - Progress and development are recorded in the child's learning journey and samples of evidence are kept for each child.
  - Children attend a part-time placement and the class teacher will liaise with the community school to share assessments and learning progress. Community schools will then complete the child's EYFS profile towards the end of the summer term.

#### **4. Safeguarding and Welfare**

Raedwald Trust will ensure that all staff understand and support the purpose and aims of the EYFS policy and that they are aware of their professional roles and responsibilities as determined by current legislation and follow the school's guidelines, Raedwald Trust child protection and safeguarding policies and procedures.
